Dear Sir:

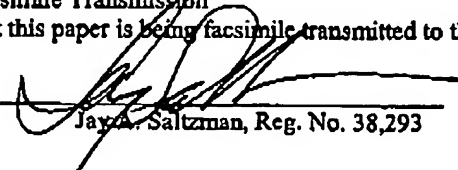

This is a reply to the Office Action of March 9, 2005, issuing a restriction in the above-identified case. In particular, the examiner identified two classes of inventions, a first-class including claims 1-6, 11, and 15, drawn to multi-layer material having a plurality of panels including a plurality of color diffractive patterns; and a second class, including claims 7-10 and 12-14, drawn to a printing and transferring method for forming a color image having holographic appearance.

Applicant respectfully traverses the restriction and provisionally elects Group I, including claims 1-6, 11, and 15, to prosecute in the instant application. A Petition for Extension of Time under 37 CFR 1.136(a) is included herewith.

Respectfully submitted,
